December 20th, 1968

Dear Harold,

Forgive me for not having mailed the enclosed material to you sooner. I know you mentioned when you were here that you would like copy of this article from the Journal of the American Medical Association.

Also, I saw Hal this week and picked up the material you thought I should show to the party I discussed with you.

My plans are as follows;

- Allow her to study written data on her own.
- Discuss her impressions and comments and make a tape.
- Discuss photos with her at the same time.
- Get Hal to hear the tape and come back to her with any additional questions.
- Send copy of tape to you.
- Make tape of her additional comments to any questions raised by Hal.

Naturally - we would then await word from you as to any question you might want to have put to her.

Any comments you might have on the above procedure will be welcomed.

Also, please accept the enclosed check as an advance order on Postmortem and Coup de tat, and the balance as a gift to you to further aid in your efforts. Best wishes to you and your wife for the holiday season and the new year.
